

# GIT - MIDTERM CHECKLIST

## ANATOMY (12Q)

- |  |  |
|--|--|
| <input type="checkbox"/> Anatomy of the mouth, teeth, tongue and salivary glands | <input type="checkbox"/> Anatomy of the abdominal wall and rectus sheath |
| <input type="checkbox"/> Anatomy of the palate, pharynx and palatine tonsils     | <input type="checkbox"/> Anatomy of the large intestines                 |
| <input type="checkbox"/> Anatomy of the esophagus and stomach                    | <input type="checkbox"/> Anatomy of the peritoneum                       |
| <input type="checkbox"/> Anatomy of the small intestines                         | <input type="checkbox"/> Anatomy of the inguinal canal                   |

## HISTOLOGY (3Q)

- General structure and features
- Histology of the upper GIT

## PATHOLOGY (15Q)

- Esophageal diseases 1
- Esophageal diseases 2
- Gastric diseases 1
- Gastric diseases 2
- Intestinal diseases pt.1
- Intestinal diseases pt.2
- Intestinal diseases pt.3
- Intestinal diseases pt.4
- Diseases of gallbladder

## MICROBIOLOGY

(3Q)

- Gram + & spore former bacterial infection of the Gastrointestinal tract.
- Human Microbiota and Mucosal immunity

## LABS

- Histology Lab (2Q)
- Physiology Lab (1Q)
- Pathology Lab (1Q)

## PHYSIOLOGY (12Q)

- Introduction to Functional structures
- Gastrointestinal motility
- Gastrointestinal secretions 1
- Gastrointestinal secretions 2
- Gastrointestinal secretions 3
- Digestion and absorption 1
- Digestion and absorption 2
- Metabolic rate and regulation of food intake
- Smooth Muscle Cells

The exam will consist of 45 theoretical questions (40 marks), with equal distribution across lectures.

The exam will also include 4 lab questions
